Group Backed By Two Assemblymen

Members of the Citizens Freeway Association who are opposing the right of way along Bancroft in La Mesa toured the proposed route with Assemblyman Ralph Cloyed and Ed Bulen last week.

Bulen said, "Let the people settle the matter. I have requested that the Highway Commission hear the people of La Mesa in regard to the location of the Highway. He also stated that in his opinion Freeways should be built through sparsely settled areas.

Cloyed said, "I have been over the proposed alternate route and believe it offers good possibilities for a long range program."

Hearings on the matter will be held in La Mesa July 29. The hearings have a bearing on El Cajon residents because the terminal for the proposed Freeway routing along Bancroft terminates at the La Mesa Blvd. and Highway 80 intersection. It will pour more traffic through the already crowded streets of El Cajon.

Vacation Hazards Need Cool Head

You say those words and hear them constantly these days as the annual vacation trek begins. You've planned to have a wonderful time. But you do know that there are hazards, and it's well to plan for them, too. You know that a vacation can be ruined by an emergency you aren't prepared for.

You will remember to take along a first aid kit, plenty of sunburn and poison ivy lotion. But there's another piece of equipment that is vitally important and that is your own attitude in an emergency.

Accidents will happen, and sometimes they happen when medical help isn't close at hand. One of the greatest dangers in any type of accident is shock. Scientifically speaking, shock is the result of a relative lack of blood in the body.

It may be caused by bleeding, internally or externally, or by loss of water and salt, for example from sweating in heat exhaustion, or from excessive vomiting or diarrhea.

It may also be caused by expansion of the blood vessels brought on by acute anxiety, contact with high voltage wires, or by severe pain. It often results in too little blood reaching the brain, producing drowsiness and unconsciousness. If not overcome promptly, death can occur.

Only a doctor, of course, can give blood or plasma transfusions or administer drugs. But the presence of a person who keeps his head at the scene of an accident may be almost important in saving a life.

Eucalyptus Group To Elect Officers

Election of officers will be held at the July 15 general meeting of the Eucalyptus Hills Civic Association. The meeting, in the social hall of the Community Presbyterian church, will be called to order at 8:15 p. m.

Lakeside Show Missed At Fair

An unfortunate occurance at the Del Mar Fair on Lakeside Day resulted in the Chamber of Commerce Talent show being cut off the air.

According to information received, Lakeside was to have given one or two numbers before they went on the Fashion Theater stage. Another announcement at the same time concerning another show is a far part of the Fair grounds, caused the people to leave the stage area and as result there was only a handful to witness the carefully planned Chamber of Commerce acts.

A sincere thank you has been extended to all those who worked to make the show well worth seeing and a promise has been extended to all those will participate next year that the affair will be handled differently.

Jayne White, Johnny Metcalfe, Charles Watkins, accordionist; Phillip Toomire and Audrey Smith, pianists took part in the show.

New Management For Star, Record

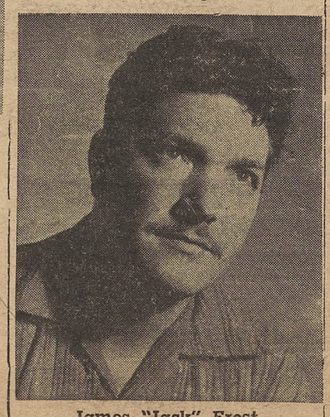
With today's issue, the Lakeside Star and the El Cajon Record will be under new management. Neil Langlois and Irene M. Baker have relinquished their management to James Frost, Edmund Cordova and William Mockler.

The three men will operate the newspaper as a joint venture until plans for purchase of the complete plant are completed in the near future.

With the change in management, the old owners express the hope that the Record and Star supporters will continue to aid the new management in any way possible.

The new men are not strangers to the El Cajon Valley area.

James, "Jack" Frost, who will be plant manager has been with the Record and Star for the past two years. He is married and with his wife LaVelle and son Roger lives at 610 Claydelle in El Cajon. He has been in complete charge of the plants for the past several months, since Neil Langlois' illness forced his retirement from active participation in the work of publishing the newspapers. Jack came from Nebraska, where he graduated from Red Cloud High School in



James "Jack" Frost

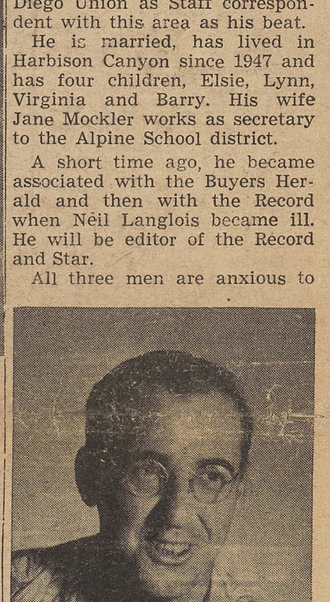
1936. He has been in the printing business ever since. Jack served with the Navy in World War II as a printer aboard many ships at sea. After coming out of the Navy he was a printer at the 11th Naval district Printing and Publications office. He also was with the La Mesa Scout for a short time after his Navy service.

Edmund Cordova starred with the athletic teams of Holy Trinity High School in Trinidad, Colo. where he graduated in 1947 before coming to California. He learned his trade in Trinidad and came to the El Cajon Record in 1951. He is at present living in San Diego, but plans to make his home in El Cajon Valley in the near future with his wife Carmen and three children, Connie, Pat and Marty.

Ed is primarily interested in the intricate work of the Linotype and Intertype machines, but is equally at home in the make-up and composition departments.

The third member of the trio is William R. Mockler. Bill has been with the people in Eastern San Diego County since 1947 in newspaper work.

He started out with the old El Cajon Valley News, and was subsequently, editor of that newspaper, editor of the La Mesa Scout and Managing editor of the Heartland News and El Cajon Valleys News.



Ed Cordova

Later Bill went with the San Diego Union as Staff correspondent with this area as his beat.

He is married, has lived in Harbison Canyon since 1947 and has four children, Elsie, Lynn, Virginia and Barry. His wife Jane Mockler works as secretary to the Alpine School district.

A short time ago, he became associated with the Buyers Herald and then with the Record when Neil Langlois became ill. He will be editor of the Record and Star.

All three men are anxious to

William R. Mockler

bring you readers the best possible coverage of news in this area. They know many of your problems and intend to bring all facets of these problems to your attention.

Winner of Ribbons

Mrs. Florence Beadle was the winner of a number of blue and red ribbons received from her historical entries in the County Fair. Also on display was her unique collection of old hat pins, pictures made from buttons and old time clothing worn by women in the olden days. She also received a blue ribbon from the El Cajon Community Fair held this past week.

May we be pardoned? You can't tell a book by its cover. We are proud to be the "First" newspaper in one of the leading communities in Eastern San Diego County. But . . . we do not intend to stay that way. We know of course that Lakeside wants to be the top community in San Diego Couny.

We would like to give all newspapers back to the people. We intend to do just that with this one. In fact we intend to do better than the present administration has done in giving the country back to the people.

Being a youthful newspaper, albeit, our editor is a few years older than the publisher of our area competitor, we have ambitions. We look to our competition with respect and interest. We have a lot to learn, but we do learn quickly.

We ask nothing more than an opportunity to tell you all about your community and the communities which surround you. We subscribe to that old American custom that anything which happens in these United States is your concern.

We do bring, for all our youth, a number of years of experience in newspaper work and a number of years in world travel as our part of the things we can give you. We ask that you add to our experience. We will do the best job we know how to do. We ask no favors and our only favorites will be the people in all of the communities in this area.

So come over to our place. We don't have much in the way of a show place, but we would like to hear your problems and in exchange we will tell you ours. Shake hands with your new publishers. Help us, help you, and the community in which you live.

Alpine Report

By CLARIZETTA STANDEN
H4-2857

Hello Alpine! I hope we share lots of news in this column from now on. In the two years since I came to Alpine I have come to know many Alpine folk, and I hope to know many more. Our new churches and new school and many new residents show just how much Alpine is growing. It is a busy town with many community and youth activities. Lets enjoy a newsfest each Thursday right here in the Record. If youre not a subscriber just remember that Ed Bike is selling subscriptions for the benefit of the Boy Scouts.

We are sorry to report that **Vi** and **Everett Holmes** will no longer be in the store. We will miss their happy faces in back of the counter. Glad to say that they are not leaving Alpine.

Bea LaForce is in Mercy Hospital for a two weeks stay. The Library is not the same when she is gone. Her many friends hope to see her back soon.

Mrs. Edward A. Walters is now at home in Alpine, recovering from a serious illness. And **Bertha Landt** is making a trip to Mercy Hospital. We hope she is well and home soon.

Mr. and **Mrs. Clarence Stearns** are enjoying their summer at Grand Marais, Minnesota, where they have a summer home. They have started building on Victoria Drive, and will continue the work on their new home when they return in the fall.

The Youth Work Team from the Congregational Conference is visiting the Community Church this week, doing some needed volunteer work. These six young people come from various places in Southern California, spending a week working at each of several churches during the summer.

Mr. and **Mrs. Runbeck** and **Roberta** plan to leave Saturday for a two weeks vacation, driving "up the coast." We'll hear all about it when they are home again.

Jack and **Mimi Wilson** are spending a few days at Yosemite. They deserve a turn at having fun, and Alpine wishes them a merry time of it.

Swimming, touring the camp and just visiting were enjoyed by Messrs. and Mesdames Maurice Smith, and Judy Tom Roundtree and Patty, Neil Langlois, Albert Seely and Diane and Mrs. Irene Baker.

This week a contest has been launched in the Eastern San Diego County area to pick Little Miss Amateur Softball Association. Rules of the contest are that the contestant must send her picture into the committee with a coupon printed elsewhere in the paper. Judging for the six finalists will be from pictures and these contestants then will be judged personally for the title of Little Miss ASA.

Paul Roberts Valley Studio and Dotty May studio are granting special discounts to all contestants.

The Lions Club sponsored championship tournament will see the County Men's and Women's teams vie for the right to attend the National Championship tourney at Miami Beach, Fla.

Last year more than 10,000 persons saw the championships at the El Cajon Baseball park. This year the four day event will be at the same place.

Host teams for the tourney will be the Culligan Soft Water Hellcats, a girl's team and the Palomar Foods Men's team. In addition the Los Angeles Champs will also play the double elimination series.

Featuring Specialty Pies

Some of Lakeside's top cooks will furnish their specialty pies to be sold at the Bake Sale to be held Saturday, July 11. The Sale will have their quarters in McAdams Publishing (next to Liquor Store) and will begin at 10 a. m. Sponsored by the women of the Community Presbyterian Church. There will be fresh strawberry pies topped with whip cream baked by one of the best cooks in Lakeside, pecan pies which will make your mouth drool and many, many more. There will also be cakes etc.

Proceeds will be used to complete the paint up-clean up campaign which has been in progress at the Church. Be on hand early if you desire a choice selection.

Cub Pack To Swim In Fuller's Pool

The local boys who are members of the Cub Pack in Lakeside will have a special treat each Monday from 11 to 1 when they will be allowed to swim in the pool on the Howard Fuller Ranch in San Vicente Farms. The boys will be well chaperoned by mothers who will go along.

As a precaution, Mr. Fuller has asked each parent to write a letter relinquishing him from any responsibility in case of accidents while at the pool. This will be required of each boy who swims. The swimming began last Monday and will continue throughout the summer.

Each Cub Scout den will be given a tour of the Lakeside Star Newspaper Plant on Thursday, July 16, and shown how a newspaper is printed, folded, addressed and mailed. This should prove very interesting to the youngsters. They will be accompanied by parents and den mothers.

Notable Notes...

Grossmont's orchestra and band are well known, and many talented boys and girls have graduated from that school. Last month, an exceptional young student, Alfred Shelby Frisch, 17-year-old son of Mr. and Mrs. Al A. Frisch of El Cajon, was graduated, and received the cup awarded to the outstanding senior boy in the Grossmont band, also a cash award of $100 from the evening division of La Mesa Woman's Club, an achievement award for high rating in mathematics, physics and chemistry from the Bank of America, and has been offered a scholarship at San Diego State College.

Alfred is a tuba player, and a student of Eugene Holloway, teacher in summer school sessions. His two younger brothers, Willis, 14, and Nicky, 7, are coming musicians. Willis plays first cello at Grossmont, and Nicky is a student of piano.

When the Western division of Music Educators National Conference met at Tucson this spring, Alfred was selected from 10 young prospects to play first tuba in the 166-piece band, comprised of outstanding performers from high schools of several states. Alfred played a solo at Grossmont commencement which was very well received.

Alfred's tuba is an unusually fine instrument, made in Germany for his late uncle, Nicholas Frisch. He is equally at home on the Sousaphone, another giant horn. Alfred's ability is such that he is often called upon as extra musicians for bands enlarged for special occasions. Besides musics, he likes to fish, swim and reads science fiction.

Many organizations, and many chairmen and committees, members of service clubs and merchants and an untold number of tireless workers brought the 5 day Community Fair to a successful conclusion Sunday. It was a wonderful week and the talent, variety of entertainment and satisfactory results in all fields have made it one long to be remembered and one which El Cajon may justly be proud. To the Junior Chamber of Commerce Tommy Holtz, Pres. and the Junior Woman's Club, with president Mrs. Louis Truax, co-sponsors represented by Bob Seward and Mrs. Louis Thurman, general co-chairmen of the Community Fair, a great big thank you from every one who attended the show. Winners of all prizes are too numerous to mention but the Honolulu trip was garnered by Mrs. Anna Johnson, 728 Pierce St., El Cajon.

El Cajon Valley residents came out with honors in the County Fair at Del Mar in Home Economics, FFA and 4-H clubs, in all branches.

With Independence Day and its many diversions out of the way ,a variety of quieter and less strenuous entertainment looms up for the summer amusement. La Jolla Playhouse has opened the "straw hat" season as of last week, Star Light Opera at Balboa Park and summer symphonies for the music lovers. "Call Me Madam" is a piece of political fun and treads lightly on party toes.

Mrs. Helen Longman, with her parents, Mr. and Mrs. A. A. Wilder of San Diego leave July 11 for a three week motor trip up the Redwood Highway to Smith River. They will stop in Berkeley to visit her son, Raymond Longman and his family.

Mrs. C. Randall Knox and Mrs. A. R. Thompson returned last Sunday from a few days of camping in the open and horseback riding. They found the azaleas blooming along the trails, and had a wonderful time in the hills. Dr. and Mrs. Knox left early Monday morning by plane for Detroit where they will purchase a new car. Motoring westward, they will go the extreme northern route to Duluth, via Saulte Ste. Marie and Straits of Mackinac, stopping at Glacier National Park, and San Francisco before coming home.

Mr. and Mrs. Arthur Thompson (Nanette C.) spent their wedding anniversary at the attractive Wishing Well court in Santa Ana, (where they were married,) where they enjoyed swimming in the heated pool. On the way up the coast, they stopped in Laguna Beach to see Mrs. Thompson's uncle and aunt, Mr. and Mrs. Thomas H. Van Rensselaer, and had dinner at the famous Knott's Berry Farm Sunday.

Mrs. Thompson and her sons leave for their cabin on Palomar this week. Mrs. Thompson's only brother, Major Richard L. Couts, is on 30 day leave with his wife and small daughter, and is visiting at their parent's home in La Mesa. Last Saturday, Major and Mrs. Couts, and Mr. and Mrs. J. Forester Couts and Barney Thompson, spent the weekend at the cabin. Barney is batching with a summer-time friend, Mike Beach, son of Mr. and Mrs. Kenneth Beach of Alhambra, while awaiting the arrival of his mother. Timmy Thompson, was chaperoned by his god-mother, Miss Bengie Pile during the family's absence.

Georgiann Evans, daughter of Lt. and Mrs. John F. Evans, will spend a week at Camp Good News, near Fullerton. She left Monday.

Huose guests at the home of Reverend and Mrs. Charles O. Forror were Rev. and Mrs. Harlan Brooks and their daughter Miss Margaret Brooks. They are returned missionaries from India, and were at the Forror home from Monday till Wednesday. On Thursday, Mrs. Gracie Underwood of Eagle Mountain, Calif. was a guest at the Forror home. Friday evening, Rev. and Mrs. Forror and a daughter and son-in-law, Mr. and Mrs. Harold Fredericks, entertained jointly Mr .and Mrs. Hubert Danner and children of Detroit, Mich. and Mrs. Laura Danner and son, Mr. Warren Danner of San Diego.

Dr. and Mrs. Kenneth Forror, returned from their vacation cabin near Lake Henshaw on Sunday, where they have been three weeks. Dr. Forror, who has been recuperating from surgery, plans to return to his practice this week.

PERTH AMBOY, N. J.—Thieves broke into the Perth Amboy Rifle Club here but ignored a "sizeable amount" of cash in a small safe that could have been carried away. Instead they took some of the club's prized art work—12 pinup pictures.

The former Miss Diane Bowman was wed to Mr. Donald Cambell on July 3 at the La Mesa Central Congregational Church in a candlelight ceremony at 7:00 p. m.

Mrs. Cambell's gown was made of a white shirt and jacket overlaying creamy satin. She carried a bouquet of white carnations buried in ribbons surrounding a white orchid. A flowing veil attached to a close-fitting cap completed the bride's ensemble. Attending as the maid of honor was Miss Melinda Mann and Gerry Cambell served as the best man.

The young couple spent their honeymoon on a trip to Borrego Springs. They are both graduates of Grossmont Union High School and plan to make their future home in El Cajon.

Communion Service At Christian Science

The semi-annual Communion Service will be celebrated in all Churches of Christ, Scientist, on Sunday. The subject of the Lesson-Sermon will be "Sacrament."

Paul's counsel (I Cor. 5:8), "Let us the fast, not with old leaven, neither with the leaven of malice and wickedness; but with the unleavened bread of sincerity and truth," is the Golden Text.

The Lesson-Sermon includes this selection from Paul's second letter to Timothy (4:5,7,8), 'Watch thou in all things . . . make full proof of thy ministry . . . I have fought a good fight . . . I have kept the faith: Henceforth there is laid up for me a crown of righteousness, which the Lord, the righteous judge, shall give me at that day: and not to me only, but unto all them also that love his appearing."

In the Christian Science textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy writes, "The robes of spirit are 'white and glistering,' like the raiment of Christ. Even in this world, therefore, 'let thy garments be always white.' 'Blessed is the man that endureth (overcometh) temptation: for when he is tried, (proved faithful), he shall receive the crown of life, which the Lord hath promised to them that love him.'" (p. 267)

First Birthday For Little Davie

party was given for Davie by his parents, Mr. and Mrs. Marple Newton, who reside at 817 Pierce Street in El Cajon.

Refreshments were served and a huge birthday cake, appropiatly decorated in patriotic colors of red, white, and blue.

"Mr. Texas" Talks At La Mesa

"Mr. Texas," called the "Worlds first Christian Western" will be shown here July 12 at the La Mesa Gospel Tabernacle, 8809 La Mesa Blvd., La Mesa at 7:45 p. m. The film is the first major production of Billy Graham Evangelistic Films, Inc. and features the famed young evangelist and his entire Evangelistic team. Playing leading roles in the full length-color pictures are Redd Harper and Cindy Walker, both professional western stars who have recently made their decision to give their lives and talents to Christian service.

Produced as an experiment, "Mr. Texas" has amazed religious leaders and motion picture authorities alike during its first year of showings. At the films premiere in Hollywood Bowl on October 1, 1951, a record throng of 25,000 persons jammed into the huge amphitheater for the largest attendance any motion picture has ever had in this country.

The story revolves around the Billy Graham Crusade in Fort Worth, Texas' Will Rogers Colisium. All the Texas scenes are from the Fort Worth vicinity. Original music for the picture was composed by Cindy Walker, called the true queen of western song writers, and Redd Harper.

No charge for admission is made for "Mr. Texas" and the doors of the La Mesa Gospel Tabernacle will be opened at 6:00 p. m.

'The Youth Speaks'

By J. C. La Suer

I am fair I mean fair ,fair. I went every day to the El Cajon Fair and one day to the County Fair. They were both grand. I never had so much fun, brought home a lot of gold fish and other things - even brought home the bacon. I guess this is the most I ever went to one. A friend of mine wanted to go on the ferris wheel so we rode together. On the third trip around we had to be let off. The friend's dinner had parted company with its owner on the top of the wheel with a big bang. I think the operator was sort of mad when he put us off. Did this ever happen to you?

The Teen-agers and their Advisory commitee met at the Library Hall Monday night. There were still not enough of the teen-agers present. If you want a good center, young friends, we have all got to pitch in and help. Tuesday a group met at the building we are trying to get into shape so we can use it very soon. A contractor is going to help us. There is still lots to be done. The girls cleaned and scraped the windows while the boys removed some of the surplus shelving and cleaned other parts of the building. It really begins to look like something and whether you know it or not this recreation center is going to be a big and wonderful place for the youth of El Cajon to enjoy their leisure time.

You know we are still having lots of ball games. They are in many age groups so you can watch boys in leagues from 9 years up. I don't really know just how old the oldest player is. It might be interesting to know who the youngest and oldest players are, don't you think? Maybe I'll get nosey and see if I can find out. Well, Morena Brothers and Native Sons played an 8-8 game Wednesday in the Midget League. Bostonia won in their game with the Pinto's. The Elks defeated Post 303. No matter what the score is it is all good sport and keeps a lot of boys interested besides it teaches many good traits.

Have you refreshed your memory on the Mason and Dixon line or shall we tell you? It was actually surveyed by two Englishmen, Charles Mason and Jeremiah Dixon (November 15, 1763 and December 26, 1767) to settle constant trouble between the Lords of Baltimore and the Penn family, the lords proprietors of Maryland and Pennsylvania respectively. The line runs along the parallel in latitude 39 degrees 42 minutes 26.3 seconds and was originally marked by milestones ,every fifth one bearing on one side the coat of arms of Penn and on the other side those of Lord Baltimore.

The Louisiana purchase was in 1803 and consisted of 824,987 square miles. California bestowed by the Spanish Conquistadores, being the name of an imaginary island near the earthly paradise in "Las Serges de Esplandian," a romance of chivalry written in the first decade of the sixteenth century. Another explanation is that the catalan explorers and missionaries (1769) after long marches in summer nea rthe coast called it the land of oven's heat — "Aixo es Calor de forfu de fornalla," and after the past few days I rather agree it is hot.

Do you know what the year one before Christ is? What Jewish maiden became Queen of Persia and risked her life to save her people. Who was it that when asked what wish he chose to make asked for wisdom?

Jean Paker, star of stage and screen stars in James M. Cain's rough and tumble melodrama, "The Postman Always Rings Twice" at La Jolla Playhouse, July 14th through 19th. Playing opposite her will be Don Taylor, the bright young Paramount star who scored a success at La Jolla Playhouse in "I Am A Camera" with Dorothy McGuire. Also in the cast is Thomas Gomez, a popular Hollywood character actor.

The La Jolla production of this classic melodrama is an entirely new dramatization by the author.

in 3 out of 4 cases in doctors' tests!

It's news about a medicine famous for *relieving* such suffering!

Here is the exciting news. Lydia E. Pinkham's Vegetable Compound — gave *complete* or *striking* relief of such distress in an average of 3 out of 4 of the cases in doctors' tests!

How Lydia Pinkham's works
It has a "calming" and soothing effect on the uterus . . . quieting the contractions (see the chart) *that so often cause menstrual pain, cramps, other distress.*

Scientifically Modern Action

Yes! Lydia Pinkham's has been proved to be *scientifically modern in action!*

This news will not surprise the thousands of women and girls who take Lydia Pinkham's regularly and know the relief it can bring.

And it should encourage *you* (if you're not taking Lydia Pinkham's) to see if your experience doesn't match theirs . . . to see if *you*, too, don't avoid the nervousness and tension, weakness, irritability — and pain—so often associated with "those days"!

Remember Lydia Pinkham's, too — if you're suffering the "hot flashes" and other functionally-caused distress of "change of life."

LOUISVILLE, Ky. — Earl Whitt had an answer ready when the municipal court judge asked him why he took off a sleeping friend's shoes and tie. He said he did it because the friend "looked uncomfortable." Police testified Whitt was wearing the shoes and had the tie in his pocket when they arrested him.

QUICK BITE — Telephone Lineman Dick Kelly guides powered post-hole digger as it chews into earth, providing hole for telephone pole. Digger seplaces former pick-and-shovel method, does job in seconds and speeds up Pacific Telephone's construction program while reducing costs.

Post Holes Dug By New Method

If you're ever dug holes in your back yard for fence posts or clothes line poles, you can sympathize with Southern California telephone linemen who have spent countless hours during the past 72 years digging post holes the hard way — with picks and shovels.

But there's been a change during the last few years. Post hole digger machines have been invented.

The post hole digger used by Pacific Telephone resembles a giant corkscrew. When the digger first hits the dirt, it takes a two-and-a-half-foot bite into the soil. The operator then reverses the gears, pulls up the digger and shakes the earth from it by rapid rotation.

When the hole is dug, the same boom that swings the digger into place also lifts the telephone pole and sets it in the hole.

Before any digging begins on a job, each pole hole location is tested for iron pipes or cable beneath the ground by a sensitive locator. If findings indicate an obstruction, it is necessary to relocate.

Thirteen of the post hole digging machines are on duty now in the 79 Southland exchanges of Pacific Telephone, including El Cajon and Lakeside. They dig about two-thirds of all the company's post holes, The other third? They're still dug the hard way — by muscle-power.

According to William Rank, manager of the telephone company tn El Cajon, the post hole digger machines and other mechanized equipment used by Pacific make the work easier.

Civil Defense Moves Offices To Gillespie

County Civil Defense offices, now located at Gillespie Field anounces that a full time employee will be on hand each day from 8 to 5 p. m., Monday through Friday.

The offices are located in building 10 just north of the swimming pool. It is planned to have Civil Defense meetings at that location in the future, but the July 15 meeting of the County organization will be held at Lemon Grove. Future plans will be announced later, said L. J. Wadsworth, Assistant Director.

Plans are being formed to establish a Communications Center at Gillespie Field. In addition, an appointment will be made for a Chief of Ground Observers and operate from Gillespie also.

El Cajon Anglers Land Large Catches

El Cajon anglers who loaded up on bass and barracuda at La Jolla included Clyde Cobb, Ralph Anderson, L. R. Holmes, Robert Holmes, William Hall and others.

Phillip L. Parker, of La Jolla, landed the second largest yellowtail taken in San Diego waters this season when he bagged a 55 pound 9 ounce lunker last Saturday, but the accomplishment went practicaly unnoticed.

Parker's big yellow was taken at La Jolla from an unregistered private boat, and therefore was not eligible for entry in the San Diego Yellowtail Derby.

Sudden drop-off in water temperature at the Coronado Islands, due to extreme current changes, resulted in slower yellowtail fishing at the Islands last weeked, but the La Jolla kelp beds immediately shouldered the entire load by producing bumper hauls of barracuda, calico bass, some white sea bass, and yellows.

Most unusual catch of the week was credited to Marge Ritter, of San Diego, who picked up a 57½ pound opah while fishing for albacore near the Coronado Islands.

The opah, a semi-tropical fish shaped like a big pompano, was accepted by the Scripps Institute of Oceanography for mounting and addition to its collection.

WITH THE 25TH INFANTRY DIV. IN KOREA—Pvt. James L. Lapp, whose wife, Carol, lives at 4536 N. Levelside Ave., Long Beach, Calif., is now serving with the 25th Infantry Division tn Korea.

Lapp, who entered the Army in December 1952, was last stationed at Fort Ord, Calif.

The son of Peter Lapp, 901 S. Avocado St., El Cajon, Calif., he attended Grossmont High School.

Now the senior American division on the Korean peninsula, the 25th Infantry landed here in July 1950 shortly after the Communists launched their attack Korea.

The European corn borer destroyed an estimated 53,000,000 bushels of corn in the United States in 1952.

WEATHER CONDITION

NOW FOR BETTER LIVING

STOPS HEAT
STOPS NOISE
STOPS HUMIDITY
STOPS DIRT

All year 'round — in your home and in your office — you live better, work better, feel better when you weather condition with a room air conditioner — the modern way to have perfect indoor weather all the time — no matter how much San Diego's weather may vary. Here's what one of these wonderful machines does for you:

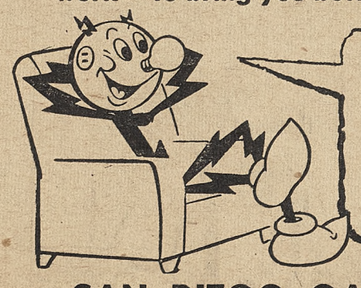
STOPS HEAT — Keeps rooms cool, comfortable and draft-free at the temperature of your choice — regardless of temperature variations outside. (Several models have reverse-cycle operation which can be used in winter as a very effective room heater.)

STOPS NOISE — Yes, they're "kitten-quiet" themselves — and because all windows and doors are closed during their operation — they keep noise or odors out.

STOPS HUMIDITY — Every hour, it delivers volumes of fresh, pure air — with all excess moisture squeezed out of it.

STOPS DIRT — Every bit of air that comes through a weather conditioner is filtered clean — it's dust-free and pollen-free

Now — see your dealer and let him show you how all the models work — to bring you better, healthier, happier living.



SEE FOR YOURSELF! ALWAYS COOL, CLEAN AND COMFORTABLE WITH YEAR 'ROUND WEATHER CONDITIONING!

made a plea for delay in passing on the cost spread. She stated that her property did not need the improvements and the cost was too high because of that. She stated that she was not against the improvements, but wanted a more equitable spread.

City Atotrney Stewart said, the total $300,000 must come from the area and if they lowered one person's assessment, other assessments would have to be riased.

Mrs. Crown asked if the City could defray part of the cost. She also asked why all the people had not been informed of the project.

City Manager Bernard Noden pointed out that 65 percent of the residents owning land in the area had requested the City that an improvement district be formed under the 1911 act proceedings.

Stewart stated again that the whole cost spread was simply a matter of, "who had which hand in what pocket." He said protestors would like to pay less, but someone would have to pay more if they did.

Must Be Area Project

Noden pointed out that drainage improvements could not be made on piecemeal basis. It had to be an area wide project and naturally some properties would bear a larger cost than others, but the spread was done in the best manner possible.

Mayor Nelson Fleming called on the protestors to register with City Clerk Delight Swain and said that the Council would study the protests and report their findings at the next council meeting.

Out of approximately 40 people at the meeting, 10 protestors gave their names to the City Clerk.

Under the 1911 Act, it was impossible to extend the meeting time when the Council had to approve or disapprove the project. However their report can be delayed and will be made in two weeks.

Vandals Prowl Fletcher Area

We feel secure in our neighborhoods because nothing untoward happens. Two things of a disturbing nature have happened in Fletcher Hills lately which may well serve to place the residents on guard. A bullet was fired at 8:35 one night last week through the plate glass window of the H. V. McElfresh home, 616 Highland, narrowly missing a child watching T. V. It came between the slats of an open venetian blind.

On Wednesday night last week attempts to dismantle a Shell pick-up truck standing in front of the F. L. Bowerfind house, 644 Garfield were found in a punctured and drained gas tank, small items missing and tools scattered around under the truck. The battery had been ripped out but not removed, when the would- be thieves were evidently frightened away. The sheriff's office was notified in both cases, but no evidence has as yet been uncovered. Having happened once it can happen again. Protect your property as much as possible. Lock your cars; keep venetian blinds closed over your windows at night if you have them. Be careful. Be alert and if you know of or hear of any like escapade, report it at once.

Box Score of Fires in San Diego County

Fires during past week	25
Fires to date this season	499
Fires to date last season	241
Acres burned to date this season	5,731
Acres burned to date last season	319
Structural damage	$167,985.64

HOWDY FOLKS:

It was a pleasure to see so many of you at the County Fair, and I hope our display will tend to keep you aware of the danger of fires throughout the county.

We've had several fires since I last talked to you. One in the Dehesa-Alpine country that swept over 1300 acres. This was the largest single fire of the season, and there is strong evidence that it was of incendiary origin. I hope everyone is aware of the seriousness of the penalties associated with incendiarism. An offender can be sent to prison for a long time.

In the Jamul area, on the Kimball Grade ,a seven acre grass fire claimed two casualties. Two State Division men were caught when their truck became stalled and they had to run through the flames to escape, resulting in serious burns on both men. Also about $500 damage to the truck.

There was also a 60 acre fire near the grade between Escondido and Valley Center. These last two fires caused by smokers, so let's all be especially careful with what we do with our cigarette butts. Put them in your ash tray where they belong. Not along the highway.

Children-and-matches as a fire cause it again showing up this year. Last year that became quite serious, so let's see that it doesn't happen again. I'm sure that children can be made aware of the danger of playing with matches, but it takes some initiative on the part of we adults. Have you done your part?

Another Traffic Count Made At Main, Magnolia For Left Turn Lights

EL CAJON — Those little wires motorists were running over on Main St. near Magnolia were counting cars as they passed. The cables are hooked to meters which register a number when the car crosses.

The devices were on the main thoroughfare and in the left turn lanes at the intersection.

This is the Highway Department way of checking the number of cars going through town and the number making left turns at stated time of day and the day in which the highest rate of through and left turn traffic is counted.

The survey arises from a request by the City to advise concerning the installation of left turn arrows at the intersection. The traffic flow tells the necessity for installing the indicator. As the State Division of Highways points out the indicator will be erected if traffic warrants. Superintendent Ed Wallace said that if most of the traffic can be best served by the installation ,then it will be erected.

However, Wallace said, it would not be to the best interests of all the motorists if the indicator held up traffic all day long and the device could only be useful at certain hours. It may be possible to have the device operable at certain hours, but if traffic warrants full time use, it will be installed.

Fight For Traffic Safety Costs $$$

"The sweetest mile is the last mile home." The San Diego County Traffic Safety Council is fighting a desperate battle against heavy accident tolls to make sure every motorist in the County has a chance at that last mile.

The Council needs the support of service-minded groups. Women's Clubs, Servicemen's Clubs, and community type organizations are urged to become Driver Members of the Safety Council on a 100% basis.

Other $1 contributions from civic-minded area residents have aidedin cutting down traffic fatalities by approximately 30% of last year's deaths at this time.

The Council is launching a gigantic fund-raising campaign now because it needs your $1 to finance further steps in accident prevention.

"As more and more people in the county become Driver Members in the Safety Council, the streets and highways will become safer for you," says Lisle F. Shoemaker, Executive Director of the Council. Motorists who are members of the Council take a greater personal interest in traffic safety and are more careful in their driving habits.

Individual or group contributions should be mailed to the Traffic Safety Council, San Diego 7. Enclose your name and address and a membership card will be sent to you by mail.

Residents Protest Fly Menace Here

Property owners on Gardner St. protested to the City Council that there was a fly menace in the area.

They stated that the dairy north of their property seemed to be the source of the huge fly population. City Manager Noden said that many inspections had been made by the County Health Dept. and the owner was carefully watched to see that all would be done to keep flies at a minimum.

Noden said that new owners were coming to the dairy and perhaps more could be done to abate the fly menace. He pointed out that the City was spraying for flies, but that they could onl ybe kept down temporarily.

Tucson Boys Band Entertains Here

Alpine is entertaining a group of boys this week and next. The Tucson Boys Band arrived July 2nd for a music camp at the old grammar school. They are to give a benefit concert for the Alpine PTA in the new school auditorium Saturday evening at 8:00.

The Band is directed by Charles J. Hall, a brother of Phil Hall. Alpine's Postmaster. The band is a community project of Tucson. The 34 boys range in age from 7 to 15 years, and are lively, happy-looking youngsters. There are just two requirements for membership, the desire to play a brass instrument and regular attendance at a church.

On July 4th they played at the Alpine Youth Center, Monday evening at the Pt. Loma Naval Station, Tuesday afternoon at the Marine Field. Today, Thursday, they will serenade the Mayor of San Diego on the front steps of Cit Hall. The engagements for the rest of their stay here include a Sunday night concert at the Navy Y in San Diego and 2 concerts next Wednesday at the Navy Hospital.

This is an interesting example of imaginative outh leadership, say residents, and a tribute to the farsighted citizens of Tucson who finance it. Alpine is enjoying their visit.
